Ceramic tile, and please understand, I supply a lot of the materials that are going to be used in the construction of the office. The products have to be ours or it will look silly trying to promote products, when the competitors product is installed, Im competitive, but the area in question is a showroom area, and needs to be our products where possible.

Such as;  
Tile flooring  
Cabinets  
Doors  
Windows  
mouldings

Len and Bill:

The previous flooring for the office area was vinyl tile. What are you expecting for the flooring in the rebuild?

Thanks.

Regards,

Eric

Good Morning Bill:

Did you communicate with Frank (EPA Contractor) or Carl (The EPA OSC that is there at the site this week)?

If not, Frank would need to let us know how that works. From what I know, if the potential contractors do not show up for the designated walk through, they may not be able to bid the job.

Frank, please clarify.

Thanks

I did a private walk through with P&D , because he is out of town until Saturday

Thanks for the update

Good Afternoon:

How is everyone? As you know, we have been shipping out the excavated soil from the GNBC Office Area and Area 5 (Northwest side of the property).

I wanted to give you an update on GNBC Office Area Rebuild. The plans have been approved by the City of Niagara Falls. Next step is awarding the subcontract to the construction company. Below is the timeline for that process. Yesterday, the walk through was conducted. I will keep you all posted with any updates. Thanks
